SUMMARY

Full-stack Software Engineer with 6+ years of experience building scalable web applications using Next.js, React, Node.js, Laravel, and .NET. Strong background in cloud deployments, system integration, and backend development. Experienced in client-facing roles, translating business requirements into technical solutions.

TECHNICAL SKILLS

- Frontend: Next.js, React.js, JavaScript, jQuery, Blade(Laravel), Razor Pages (ASP.Net C#)
- Backend: Node.js, PHP, Laravel, .NET Framework (C#)
- Databases: MongoDB, PostgreSQL, MySQL
- ORMs: Mongoose, Sequelize, MySQL, Eloquent
- Workflows: n8n, make.com, Microsoft Power Automate
- Cloud: AWS (EC2, Amplify, Lambda, S3, Lightsail, Route53, Cloudwatch, EventBridge), Microsoft Azure (SharePoint, Active Directory, App Service)
- DevOps: Linux, Nginx, Apache, Github Actions, Jenkins

CERTIFICATIONS

- AWS Fundamentals Specialization:
<https://www.coursera.org/account/accomplishments/specialization/TT7EYXTLU8D2>
- Architecting Solutions on AWS:
<https://www.coursera.org/account/accomplishments/verify/T46LUA7CSQNH>

EXPERIENCE

- **TheHexaTown** Aug 2023 – Present
Software Engineer
 - Delivered an automated call receptionist and meeting booking management system using Node.js, VAPI, n8n.
 - Developed frontend applications using Next.js and React.js for production environments.
 - Built backend services using Node.js with MongoDB and PostgreSQL.
 - Delivered Laravel-based support engineering for a personal online fitness-coaching platform. Also integrated, OpenAI's GPT 11m to create automated workout routines.
 - Deployed applications on AWS using EC2, S3, Amplify, and Lightsail.
 - Integrated Azure Entra SSO and DatoCMS with Next.js applications.
- **Allied Consultants** Nov 2020 – Aug 2023
Software Engineer
 - Developed and deployed backend systems on Linux and Windows servers.
 - Worked on a Learning Management System with PHP backend and jQuery-heavy frontend.
 - Delivered Laravel-based solutions for e-commerce and legal case management systems.
 - Built SharePoint provider-hosted apps using .NET and automated workflows via Power Automate.
 - Created ServiceNow workflows to automate employee onboarding processes.
- **Trikins** Jan 2019 – Sep 2020
Software Engineer

- Developed food delivery mobile application with REST APIs and Google Maps integration.
- Built cross-platform fitness mobile application using React Native.
- Implemented navigation and location services for Android and iOS platforms.

-

ICSS Engineering

Feb 2018 – Dec 2018

Software Engineer Intern

- Deployed Android and iOS applications to app stores and resolved release issues.
- Developed scripts for interacting with hardware sensors on Arduino devices.

EDUCATION

-

University of South Asia

2015 – 2019

Bachelor of Computer Science

Lahore, Pakistan
